Other features

Policy Loan

You may take a loan against your policy once it has acquired a surrender value. The maximum loan that can be availed is 70% of the surrender value under the base plan. The interest on loans will be charged at market related rates set by the company from time to time. Please contact us to know the prevailing rate of interest on loans.

Interest on loan is payable at prevailing interest rate of 8.75% p.a for FY 24-25. Prevailing interest shall be equal to 10 year G-sec benchmark effective annual yield as on last working day of last financial year, rounded up to the nearest multiple of 25 basis points plus a margin of 150 basis points. The Company reserves the right to revise the applicable interest less frequent than annual.

For Paid-up policies, if at any time during the term of the policy, the sum of loan outstanding and unpaid interest on loan outstanding exceeds the surrender value; the policy will be terminated by recovering the loan outstanding amount and unpaid interest amount from the surrender value after giving intimation and reasonable opportunity to you to continue the Policy.

Before payment of any benefit (death, survival, maturity or surrender) to the Policyholder for a policy against which loan is availed of, the loan outstanding and the interest on loan outstanding will be recovered first and the balance if any will be paid to the Policyholder or nominee, as applicable.

For in-force and fully paid-up policy, the policy can't be foreclosed on the ground of outstanding loan amount including interest exceeds the surrender value.

Flexible premium payment frequency

You have an option to pay premiums either yearly, half-yearly, quarterly or monthly. Quarterly and monthly frequency are allowed only if the premiums are paid electronically, like through ECS. For monthly frequency, first two months premiums will be collected in advance at the time of issuance of the policy.

Loading on premium will be applicable as per the table below:

Frequency	Yearly	Half- yearly	Quarterly	Monthly
Modal loading	Nil	1%	2%	4%

Grace period for payment of premiums

During the grace period the policy shall continue to remain in force along with all benefits under this policy and claim, if any, shall be payable subject to deduction of the due but unpaid premium for the policy year.

Premium discontinuance

The policy shall acquire a Surrender Value after completion of first policy year provided one full year premium has been paid. If you discontinue the payment of premiums before your policy has acquired a surrender value, your policy will lapse at the end of the grace period and the death Benefit and rider benefits, if any, will cease immediately and no benefits will be paid when the policy is in lapsed status.

If the policy has acquired a surrender value and no future premiums are paid, you may choose to continue your policy on paid-up basis.

Paid-up Benefits

On your policy becoming paid-up, benefits under the plan will be reduced as given below:

Benefit	Payout
Death Benefits	Sum Assured on Death multiplied by paid-up factor The Reduced Paid-up Death Benefit is subject to a minimum of 105% of Total Premiums Paid up to the date of death of the Life Assured.
Increasing Income Benefit	Guaranteed Monthly Income multiplied by paid-up factor
Maturity Benefit	Guaranteed Sum Assured on Maturity, if applicable, multiplied by paid-up factor

Paid-up factor = Number of premiums paid divided by Number of premiums payable

For treatment of riders in paid-up status, please refer to the rider terms and conditions.

Surrender

If your policy has acquired a surrender value, as explained in the premium discontinuance section, and you choose to discontinue your policy, you will be entitled to a surrender value, which is higher of the Guaranteed Surrender Value (GSV) or Special Surrender Value (SSV) of the policy. The policy will be terminated once it is surrendered.

Guaranteed Surrender Value (GSV)

The Policy shall acquire a Guaranteed Surrender Value if all due premiums have been paid for at least first two consecutive Policy Years in full.

The GSV is equal to:

GSV Premium Factor multiplied by Total Premiums Paid less GMI already paid, if any.

Special Surrender Value (SSV)

Special Surrender Value shall become payable after completion of first Policy Year provided one full year premium has been paid.

The applicable SSV shall be reviewed annually based on the prevailing yield on 10 Year G Sec and the underlying experience.

You are requested to get in touch with Us for the applicable SSV for Your Policy.

For more details on GSV and SSV, please refer to the policy terms and conditions.

Lapse

If you discontinue the payment of premiums before your policy has acquired a surrender value, your policy will lapse at the end of the grace period and the death benefit and rider benefits, if any, will cease immediately and no benefits will be paid when the policy is in lapsed status.

Revival

You can revive your lapsed/paid-up policy and the riders (if any) for its full coverage within five consecutive years from the due date of the first unpaid premium but before policy maturity, by paying all outstanding premiums together with the interest, as applicable. The Company reserves the right to revise the applicable revival interest rate at an interval other than annual and/or change in basis of determination of revival interest rate. The Prevailing interest rate is calculated as equal to 10 year G-sec benchmark interest rate as on last working day of the previous financial year, rounded up to the nearest multiple of 25 basis points, subject to a minimum revival interest rate of 7% p.a. Please contact us to know the prevailing rate of interest for revival of policies. Revival of the policy and riders, if any, is subject to Board approved underwriting policy. On revival, the policy will be eligible for its complete benefits and any due and unpaid benefit shall be paid immediately (without any interest) when the policy is revived. For revival, the rate of interest for FY 24-25 is 7.25% p.a. compounded yearly.
